

Pelagic Fish Pumps

Sizes ranging from 8" to 20" are more than enough to cater to any vessel. Manufactured mainly from Marine Grade Aluminium and Stainless Steel, there is no surprise how durable and strong these pumps are. For extra protection a rubber bumper is vulcanized to the casing. SeaQuest Fish Pumps are available for purse seining or trawling applications. Storage cradle are also available, manufactured completely from Stainless Steel.

***SeaQuest Fish pumps are regarded as
No.1 worldwide***

Fish Hose & Fittings
